

Poultry Fat - Category 3

Poultry feed fat is a characteristic smelling fat with a characteristic odour, extracted by wet rendering, purified by centrifugation and stabilised with antioxidants, from the processing of Category 3 slaughterhouse by-products from the slaughter of healthy animals intended exclusively for human consumption.

Poultry feed grease can be used for the feeding of food-producing livestock - pigs and poultry - and pets.

Name of the factory producing the product: **Factory of Hódmezővásárhely ATEV Ltd.**

Address: HU-6801 Hódmezővásárhely, Aranyág kert 14.

EU licence number:

05-ABP-065 (PROCP)

EU feed production registration number: **HU 05 1 00074**

Guaranteed nutritional values

Name	Summer quality		Winter quality	
	MINIMUM	MAXIMUM	MINIMUM	MAXIMUM
MIU %		3		2
FAT CONTENT %	97		98	
ACID NUMBER %		50		25

The product is treated with BHT antioxidant.

Storage recommendation: cold, in a heated closed tank

Packing of the feed: in bulk, in tankers

Quality conservation period: 6 months from the date of manufacture
